# welcome to CATALOGUE **TWELVE** audio visual mobile entertainment low voltage range

## **Experience**

Avtex has been the trusted name for mobile leisure specific audio visual products for nearly 30 years. Our skilled dedicated team design our TV's and other associated products specifically for the mobile leisure industry. Over the years we have accumulated a wealth of experience and technical expertise in this narrow sector and have an in-depth understanding of the market and its intricate requirements. Sleek design, high quality componentry, rigorous testing, state of the art technology and cutting edge features are the hallmark of Avtex products.

Avtex products are approved and installed by many leading leisure vehicle manufacturers throughout the world.

## **Support**

Although there are many electrical products available that are loosely stated as suitable for the caravan and motorhome use, this does not necessarily mean that they were specifically designed for this marketplace.

All products supplied by Avtex carry a comprehensive warranty and it is this uncompromising commitment to our high level of after sales service which has a direct bearing on the products we supply.

You can rest assured that any product originating from Avtex has been designed from the outset for the mobile leisure industry and has undergone stringent in-house testing by our technical department to evaluate the product's suitability for this unique environment as well as conforming to strict levels of build quality and long term reliability.

## **WHY COMPROMISE?**

# Designed for your **Mobile Life**

## Internal 12v **Circuitry**

Avtex televisions are designed from conception for the outdoor leisure industry. Designed to operate on 12/24v DC and have an on screen low voltage alert to inform you when your battery is running low.

## One Button **Tuning**

As you move from location to location, or country to country, you will need to re-tune your television to receive the local transmitter, a normally tiresome exercise. Avtex televisions feature AQT, a revolutionary one button tuning system that tunes, stores and orders all available television and radio stations at the touch of a button.

## Battery **Indicator**

Using the intelligent power management system incorporated in your Avtex TV you can view the condition of your leisure battery on screen from a touch of a button on your remote handset.

in beautifully  
crisp sharp  
high definition**  
(subscription free)

**DVB-T2:** DVB-T2 is DVB-T (digital video broadcast – terrestrial) 2nd generation. This latest digital broadcast platform allows broadcasters to transmit programmes in high definition (HD). Only products that are equipped with a DVB-T2 tuner can receive HD programmes through a standard aerial without the need for extra equipment.

**DVB-S2:** DVB-S2 is DVB-S (digital video broadcast – satellite) 2nd generation. This latest digital broadcast platform allows broadcasters to transmit programmes in high definition (HD). Products that are equipped with a DVB-S2 tuner can receive HD programmes through a satellite antenna without the need for extra equipment.

Enjoy crisp sharp High Definition on all of the latest range of Avtex TV's with most having both DVB-T2 and DVB-S2 tuners built-in.

This is not just HD ready,  
this is **HD BUILT IN!**

# SB195BT **SOUND-BAR**

All-In-One TV Sound-Bar & Bluetooth Speaker System

The Avtex Audio mini Sound-Bar revolutionises your audio experience at home or on the move. Immerse yourself in deep, rich and velvety tones from its four-speaker drive system. The Avtex Audio mini Sound-Bar is a natural companion to your Avtex TV (connection bracket for 8 and 9 series TV supplied other brackets available) or as a stand-alone Bluetooth speaker.

Connect via Bluetooth and enjoy wireless music from your Bluetooth phone or devices. Designed to operate on a 12/24V DC battery and mains voltage means this unit is perfect for use in your caravan, motorhome or boat as well as your home. You will be amazed at the exceptional performance from such a compact unit. Admire the design DNA that influences the new Avtex Audio mini Sound-Bar.

# THE COMPLETE SOLUTION

The SB195BT comes complete with a bracket so it can be attached to the latest Avtex TV's for wall mounting, simply remove the TV stand (as it is not required when wall mounting) and use the same two holes that the stand uses to attach the bracket and Sound-Bar. Simple. For other makes of TV or older Avtex models consult your retailer regarding a mounting solution.

## KEY FEATURES

- Bluetooth wireless music streaming
- Ultra-compact design
- Four-speaker driver system
- Superior tonal range for crisp, clear sound
- Simple set-up
- USB Playback
- HDMI Arc
- Coaxial audio in
- Aux in
- EQ settings
- 240v AC / 12v/24v DC
- Power Output: 2 x 10W
- Power Consumption: 12v - 0.75A / 24v - 0.42A

AUDIO

# STH3000

## The STH3000 boosted antenna with LTE

filtering is designed specifically for use with digital televisions. It is light weight, compact and very easy to use. With its unique flexible mounting system it can be installed indoors or outdoors in seconds. The integrated 20db amplifier can be powered by the antenna power out function found on most set top boxes and all Avtex digital televisions. Alternatively, the STH3000 uses a 12/24 volt dc power inserter (included) perfect for caravanners and truckers alike!

## SPECIFICATION

- High gain 20dB TV aerial
- Directional
- LTE (4G) integrated filtering
- Built-in low noise amplifier
- 2 way power source (TV antenna power out or 12v/24v)
- Flexible suction mount (similar to GPS windscreen mount) – no need to drill holes
- Pole or wall mounting bracket also supplied
- UV resistant housing
- Water resistant

## ANTENNA

# ANPS104

## The Avtex ANPS104 is the perfect solution

for low signal strength areas or for boosting the signal to up to four separate TV locations. The Avtex ANPS104 amplifier operates on 12v DC designed for use in caravans or motorhomes.

## FEATURES

- Low noise amplifier technology
- 1 input and 4 outputs
- High 12 dB Gain
- 12v DC power – lead supplied
- LED power on indicator

# Navigation for **Caravans & Motorhomes**

Following a collaboration between Avtex and satellite navigation leaders Garmin, a range of caravan and motorhome satellite navigation products are now available.

Exclusively endorsed by the Caravan and Motorhome Club, these units contain all the latest data for their sites both home and abroad, as well as further directories of over 9000 sites throughout the UK and Europe.

SINCE 1907

**CARAVAN AND  
MOTORHOME CLUB**

Powered by

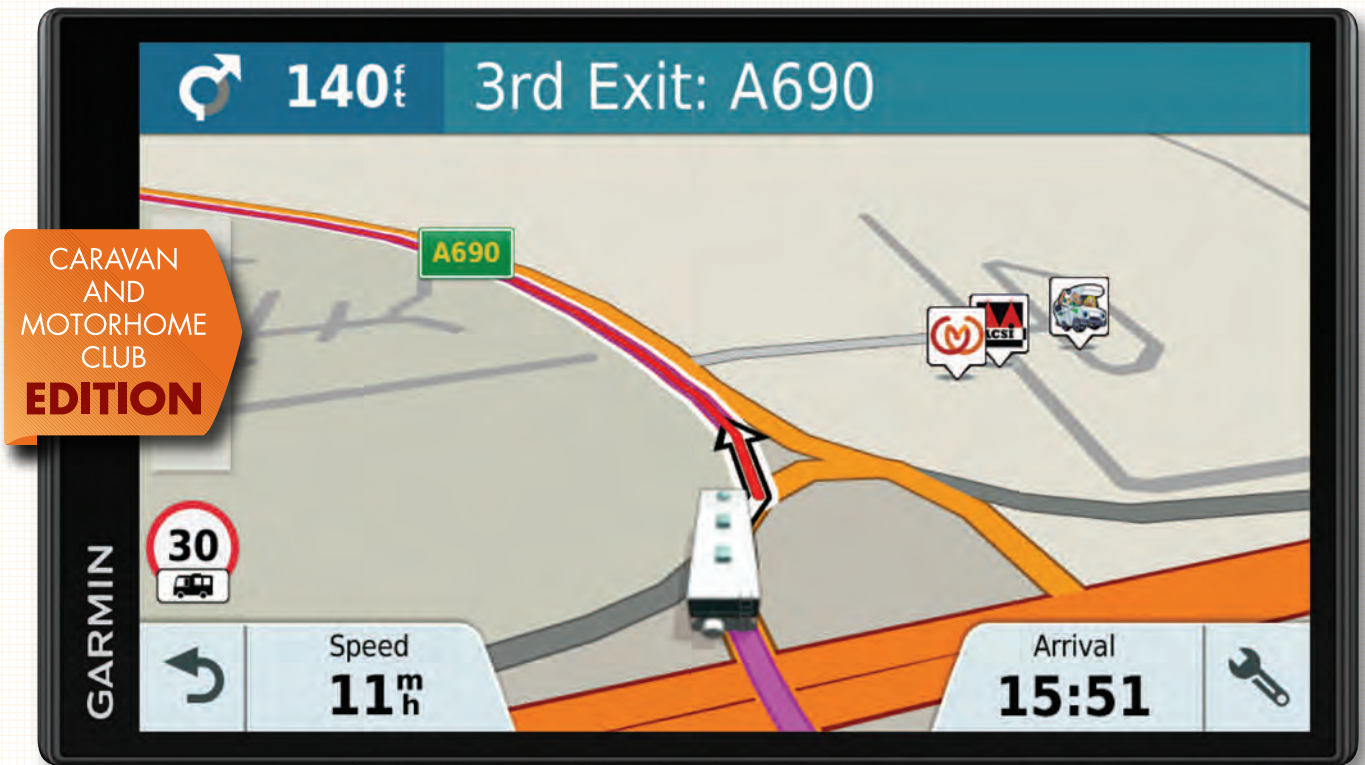

# TOURERONE

Satellite Navigation for Caravans and Motorhomes

SINCE 1907

CARAVAN AND  
MOTORHOME CLUB

## The new Avtex Tourer One has been developed

through a collaboration between Avtex and satellite navigation industry leaders Garmin and comes packed with features specifically for use with caravans and motorhomes and being The Caravan and Motorhome Club Edition this unit has all The Caravan and Motorhome Club data on-board allowing you to search and filter and view all the best Caravan and Motorhome Club sites in the UK and Europe.

The Avtex Tourer One is designed to simplify navigation with motorhomes and caravans. It comes preloaded with detailed maps of 45 European countries, including information on road restrictions, such as bridge heights. Just enter the specification of your motorhome or caravan, then the Tourer One will use your vehicle profile to find the most efficient route across the UK and Europe. Your route will be determined based on the height, weight, length and width of your vehicle.

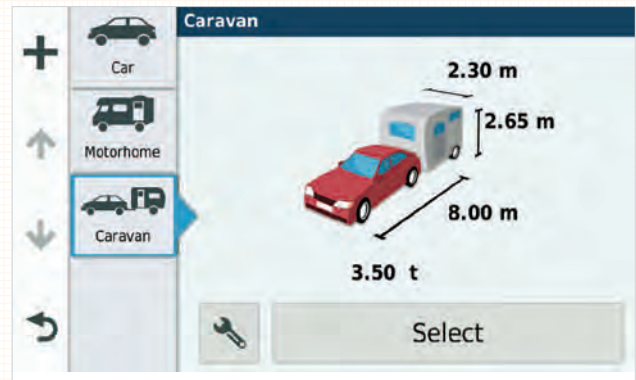

## FEATURES

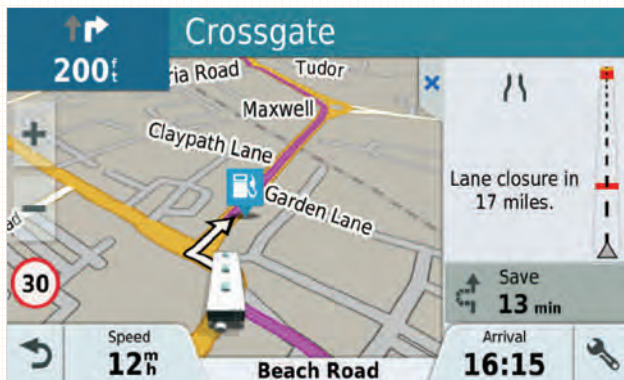

- 7" Frameless Display guides you to your destination with a pinch-to-zoom, capacitive glass display & easy route shaping feature
- Caravan and Motorhome Vehicle Profile shows speed limits, height restrictions and driver alerts for sharp curves and more
- Three exclusive **Caravan and Motorhome Club** data bases
- Extensive European Caravan and Motorhome site data bases
- Free Lifetime Digital Traffic
- Free European Lifetime Map updates via PC, Mac, or WiFi
- Road Warnings, Elevation Profile, Fatigue Warning and Driver Alerts
- Hands-free features include Bluetooth® calling, smart notifications and voice-activated navigation
- Navigate Complex Interchanges with “spoken turn-by-turn” directions and active lane guidance
- TripAdvisor Travel POIs with ratings
- BC™ 30 Wireless Backup Camera compatible (not included)

# TOURER ONE PLUS

Satellite Navigation with integrated Dash-Cam

## All-in-one 6" Caravan and Motorhome Club

Edition satellite navigation unit the Avtex Tourer One Plus with premium navigation features has a built-in dash cam that serves as an eyewitness on the road and a record of your journey.

- Customised vehicle routing for the size and weight of your Motorhome or your Car and Caravan combination.
- Road warnings for bridge heights, weight limits, sharp curves, steep gradients and more.
- Driver assistance features such as lane departure warning and forward collision warning.
- Detailed maps of Europe with free lifetime map and digital traffic updates, the best traffic avoidance solution available from Garmin

The Avtex Tourer One Plus provides more than just help with directions. The unit's built-in dash cam will capture and save footage of any collision, which can make all the difference when fault is being determined. The magnetic mount lets you easily secure to or remove from your vehicle. The adjustable swivel lens mounted on your windscreen or dashboard gives you the

optimal view of the road for recording and a 6" glass screen with pinch to zoom. The Tourer One Plus is essential equipment for caravaners and motorhome owners and has all The Caravan and Motorhome Club data on board allowing you to search, filter and view all the best Caravan and Motorhome Club sites throughout the UK and Europe.

As soon as you start driving the Tourer One Plus automatically records continuous HD video. In the event of a collision the Incident Detection (G-sensor) automatically saves footage on impact. You can also manually save footage with the touch of a button.

The unit can also easily be removed from its magnetic mount allowing you to take close-up pictures of any collision damage with the Snapshot feature.

Optional GPS overlay provides location, speed, date and time to precisely record when and where an incident occurred. An 8 GB microSD™ card is included. Play back video footage right on the Tourer One Plus large 6" display.

## FEATURES

- 6" Display guides you to your destination with a pinch-to-zoom, capacitive glass display & easy route-shaping feature
- Caravan and Motorhome Vehicle Profile shows speed limits, height restrictions and driver alerts for sharp curves and more
- Three exclusive **Caravan and Motorhome Club** data bases
- Extensive European Caravan and Motorhome site data bases

# MOUNTING SOLUTIONS

In today's style conscious world many of our decisions are design led. So when choosing a flat panel TV wall mount a well designed, space saving solution is very important. Our new range of quick release mounting solutions are very simple yet highly functional. Most brackets can swivel and tilt (amounts vary by model, please see specifications below) and incorporate a quick release function allowing you to mount and remove your television from the bracket quickly and easily. A great feature for security and for those on the move.

## SV.5
